SP-1 represents minimalism and attitude in its purest form. A lightweight oval shaped muffler with a weldless tip, forged with the purpose of removing any redundant feature and designed to revamp Tuareg 660's back. Engineered to meet everybody's need, from heavy off-road riding to everyday traffic adventures, **SP-1** is ready to withstand any adversity. Its titanium canister, hand welded mounting bracket, removable dbkillers and signature HP CORSE logo laser make him a trustworthy partner on the asphalt and on dirt road too. Extensively dyno and road tested, **SP-1** is available in the frosted titanium variant or black coated with ceramic treatment.

Time to look up at HP CORSE **SPS CARBON**: pure and essential lines, 350 mm long octagonal body, hydroformed nozzle surrounded by a carbon fiber end cap revealing a pair of removable db-killers, a slip-on that perfectly blends into Aprilia Tuareg 660's design. Ready to accompany those who seek freedom, the frosted stainless steel exhaust is equipped with a protective heel guard. HP CORSE, who has always been on the cutting edge, here too does not contradict itself, offering a street legal, Euro 5 compliant slip on which is a perfect balance between design and performance. Designed in the R & D Center of Bologna, long bench and road-tested before being marketed, **SPS CARBON** stands out for its compact size and appears to be highly performing on the road as well as on the rough streets. Outfit your Tuareg 660 with HP CORSE superior craftsmanship, breathe in the spirit of endless adventure and ride your passion.

2 INTO 1 EVOLUZIONE HEADER PIPE

- Stainless Steel Decat Collector
- CNC Billet Lambda Nipple
- CNC Tube bending
- Hand Made satin finish
- Manually TIG welded
- Only for Race Parts

2 into 1 EVOLUZIONE COLLECTORS built in A304 stainless steel and obtained through CNC machining. Calculated diameters and head-to-head couplings TIG welded by experienced welders. Calibrated fits and stainless steel bushings turned from solid. Mixed connections of springs in the most stressed parts and clamps for structural soundness at the back. Lambda probe plugs included.

- **2 into 1 EVOLUZIONE COLLECTORS WITH HIGH MOUNT LINK PIPE** An exact double of the stock Aprilia manifold. Compatible with the OEM silencer and HP Corse SP-1 and SPS CARBON 350 line.
- **2 into 1 EVOLUZIONE COLLECTORS WITH LOW MOUNT RALLY PIPE** Allows a repositioning of the SP-1 compared to factory set-up, lowering the centre of gravity for increased offroad handling.
